ISBN : #3540672656 | Date : 2000-03-30

Description :

PDF-289ae | On the way towards the Information Society, global networks such as the Internet, together with mobile computing, have made wide-area computing over virtual communities a reality. Digital city projects, with the goal of building platforms to support community networking, are going on worldwide. This is the first book devoted to digital cities. It is based on an international symposium held in Kyoto... *Digital Cities: Technologies, Experiences, and Future Perspectives (Lecture Notes in Computer Science)*
