Description :

PDF-f6536 | Americans should be able to count on receiving health care that is safe. To achieve this, a new health care delivery system is needed "a system that both prevents errors from occurring, and learns from them when they do occur. The development of such a system requires a commitment by all stakeholders to a culture of safety and to the development of improved information systems for the delive... *Patient Safety: Achieving a New Standard for Care (Quality Chasm)*
