Description :

PDF-f9cd0 | Current electronic healthcare record (EHR) systems utterly fail to assist doctors and nurses in their work; designed without recognizing the actual needs of those users, but rather solving mostly administrative problems instead. This failure results in an ongoing lack of safety and efficiency in care delivery. We need to do much better. This book lays out how an effective EHR system should be built... *Rethinking the Electronic Healthcare Record: Why the Electronic Healthcare Record (Ehr) Failed So Hard, and How It Should Be Redesigned to Support Doc*
